

Beat the bullies

Sitting in the corner,
Feeling weak inside,
Knowing they will get you,
Knowing you should hide.

Strolling around towards you
Growling as they go,
They try and take your money
But you can't say 'NO!'

You know they will get angry
You know that you can tell
They think they are the boss
They think that they are swell

You know that there the coward
But they think you're the wimp
Imagine you're in a bubble
Don't act to mild and limp

They have got the problem
Trying to make you small
They say that you'll look stupid
Say 'thank you!' stand tall

They try and make you do something
All you say is 'NO'
They pester you a lot more
Repeat yourself, they get fed up you know.

If you're being bullied
Please tell someone,
Don't suffer in silence
Or they think there number 1!
